Can you be on the 4 call?

Just sent this to Brian:

Rod understands the most important thing is that you and I are protected and the opportunity is protected. I will call him right after my meeting tonight.

Please be sensitive to Brian that we are on the same page and a team and protecting each other. He is very sensitive right now.

want us to start. I have some thoughts and am up now working on some stuff. I also have some pretty big news I want to share with you about me personally. Let me know when free or Monday works too.

11/24/19, 8:53 AM

Think this is ok?

Hey Brian. Monday or Tuesday morning work to talk with your CFO. I need to talk to you before. I am really struggling trying to understand how the remaining fees that are owed to me on the projects that had already been approved and agreed upon are now in serious jeopardy of not being paid. Not receiving the remaining fees I understood to be finalized and in place would be devastating to me and my family. Me bringing the Sterling relationship/opportunity and the immense value to everyone involved, I would have thought the fees owed to me would be protected and not be jeopardized. Clearly, I am deeply upset and concerned about this and want to make sure the fees are paid. Please call me when you can. Thanks.

Not receiving the remaining fees I understood to be finalized and in place would be devastating to me and my family. Bringing the Sterling relationship/opportunity and the immense value to everyone involved, seems to warrant payment as originally planned. I am deeply concerned about this and want to make sure the fees are paid. Please call me when you can. Thanks.

Shoot already sent

Call me when you can. My mind is open and thoughts flooding in. We need to get moving forward and position ourselves.

I heard years ago that 2020 was a recession year. Now there are financial People writing about that. What if we did a slight twist to the business plan.

What if we rolled out a plan to help investors get into cash and use debt for new investment opportunities that will be ripe for a downturn?

I think that's a great idea. I think there are 5 distinct directions our company should focus on all with significant upside potential. Will send you a revised outline of what Im thinking. Let's make this a priority.

Preliminary draft. Let's discuss.

📎 Oak Hill Partners Business Plan

I want to integrate this into the plan. Also, I definitely want to expand beyond Brian. There are lots of Brians out there
